

## Mini-Valve

### Product Description and Applications

<p>The Mini-Valve is shown in the photo on the right. It has a Male Inlet (left) and Female Outlet (right), both conical 6mm "Plug and Play" sockets that fit all our irrigation devices and accessories.</p> <p>Our standard product is assembled with yellow valve having an orifice for a flow of 200L/H, but other flow valves can be assembled for special orders.</p>	
<p>The valve orifice is made with a wide conical opening and narrow outlet nozzle, such that it can operate like filter and collect sand particles. A clogged orifice can be cleaned by reverse flow.</p>	
<p><b>Applications:</b></p>	
<p>For Vibro-Spreader Complete sets on spikes, (left picture).</p> <p>For overhead irrigation, hanging UD Dynamic Mister sets (right picture) or UD Elite Vibro-Spreader sets.</p>	
<p>For Laterals in gardening or on germination tables.</p>	
<p>For use as In Line Valve</p>
